

Fire chief report 2/8-3/7/16

No calls

2/20 ice rescue training. Lapointe fire /rescue crew and windsled headed to Bayfield for training with members of Bayfield and Red Cliff ice rescue. Three instructors were on hand for the training. We did several revolutions of getting people out of the water. We trained with Bayfield's inflatable ice rescue boat and the husky wind sled. It was good training with people from other organizations and their equipment.

3/2 monthly training. We were supposed to have Eric Sireen, the new training guy from the D.N.R. here for a wild fire suppression refresher class but due to the lack of ice we were not able to get him back to the mainland. Instead we exercised all of the vehicles, ran the pumps and put emergency vehicle Dale back into service.

Be safe Rick Reichkitzer
